

If Sinclair Broadcasting goes through with the anti-Kerry pseudo-documentary one of two things must happen.

1) License renewal MUST be more closely scrutinized. or why not give the US airwaves to anti-American propaganda??

2) The government MUST consider it as an official campaign contribution and Sinclair must treat it as such.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. We have Fox, isn't that enough?

I trust in you to do your job even if your boss's job is on the line.

Thank you,  
Diana Harris
